

```
public int[] makeMiddle(int[] nums) {  
    int[] myArray = new int[2];  
  
    int middle = nums.length / 2;  
    myArray[0] = nums[middle - 1];  
    myArray[1] = nums[middle];  
  
    return myArray;  
}
```
